

52-Way Network IO Controller

Rich links Dual-Band WiFi/Ethernet

**Expandable IO** 

R

#### **Product introduction**

The USR-M050 is a new generation of intelligent network port IO controllers designed for industrial automation, equipment monitoring, energy management, and smart warehousing. This product features 2 digital input (DI) and 2 digital output (DO) channels, supporting the expansion of various IO acquisition and control functions. It offers flexible communication capabilities, including dual-band WiFiand Ethernet network connections. With its compact design and high performance, it can be easily deployed in various industrial settings, meeting the needs for efficient data collection and remote control. This helps enterprises achieve intelligent upgrades.

The product uses RISC-V processor, supports multiple network combinations, and more reliable upstream transmission; the hardware integrates 2 DI, 2 DO, can achieve industrial field control requirements, and supports Modbus protocol control. It can be widely used in smart breeding, smart factory and other industrial intelligent solutions.

#### **Product features**

- Multiple networks, Ethernet and WiFi, network is faster and more convenient;
- Support Modbus, Json acquisition and control, flexible protocol selection
- Supports MQTT, TCP Server, and TCP Client links
- Expand the IO function, the host has 2DI, 2DO, supports up to 6 IO expansion modules;
- Support access to the cloud to realize remote management and upgrade
- Small size, support rail installation, hanging ear installation

# Intelligent Warehousing / AGV

PLC Remote IO Stations, Distributed IO

The M050 connects to the control network via Dual-Band WiFi/Ethernet and controls IO to open doors upon AGV arrival.

#### **Product Parameter**

USR-M050 Specifications						
Power	voltage	DC:9~36V				
ю		The second channel supports the acquisition of switch quantity, with 9-36V				
	DI	as high and 0-2V as low. The filtering time can be adjusted				
	DO	2*DO, load 3A-250VAC/28VDC				
	Size	80 x 30 x 110 (mm)				
	Weight	<200g				
Physical	interface	Terminal, hole diameter 1.5mm (diameter)				
Specifications	way to install	Rings or rails				
	Expand the	Slide rail, built-in connector				
	way					
Hardware	static electricity	IEC61000-4-2, Level 2, class B				
Protection	surge	IEC61000-4-5, Level 2, class B				
	pulse group	IEC61000-4-4, Level 2, class B				
	Supply	POW, it lights up when powered on and turns off when powered off				
	Work	WORK, the equipment works normally, 1s flash once				
Indicator		NET, No network shutdown;				
Light	Network	WiFi: 2.4G Flash twice, and then flash again after 2S;				
Light		WiFi: 5G flashes twice, then flashes again after a 2S interval;				
	DO	2*DO				
	DI	2*DI				
Ethernet	Standard	1* WAN , 10M/100M , RJ45 , MDI/MDIX				
	Default	Static IP: 192.168.0.7				
	DNS server	The default primary server is 223.5.5.5,				
		and the default standby DNS server is 8.8.8.8				
Operational	Working	-25°C ~ 70°C				

Environment	temperature			
	Storage	-40°C ~ 85°C		
	temperature			
	Working	5% ~ 95% ,No condensation		
	humidity			
Other Features	Antenna	SMA-F external screw inner hole		
	Networking	ICMP,IPv4,IP,ARP,TCP,UDP,DHCP,DNS,HTTP,MQTT,		
	protocol			
	Parameter	Built-in Web		
	configuration			
	Communication	3 routes, 1*TCP +1*MQTT +1*PUSR Cloud,		
	link	SSL encryption supported		
	Protocol	Modbus RTU/TCP,Json		
	conversion			
	Time	Supports NTP, browser time synchronization and manual setting, and		
	calibration	supports time zone setting		

## **Product Size**

### **Product Selection**

Product model	Ethernet	Network	Area	Band
USR-M050-C1	V	LTE Cat1	China	LTE TDD: Band 34/38/39/40/41 LTE FDD: Band 1/3/5/8 GSM: 900/1800MHZ
USR-M050-ETH	V	-	Global	/
USR-M050-EW	V	WiFi 2.4G/5.8G	Global	IEEE 802.11a/b/g/n/ac
